#### TECHNICAL DATA

# **MAX-A-TACK TTC®**

Trackless Tack Coat Emulsion

### **DESCRIPTION**

**MAX-A-TACK TTC**<sup>®</sup> is an anionic trackless tack coat emulsion that is used primarily as a tack coat. This product can also be diluted 10% with water and used as a fog seal.

**MAX-A-TACK TTC**<sup>®</sup> is manufactured to meet applicable state specifications.

### **FEATURES / BENEFITS**

- Lower application rate than most conventional tack coats, resulting in application cost savings
- Fast cure time
- Increases bond strength
- Can also be diluted 10% with water and used as a fog seal
- > 50% solids
- Zero VOCs

#### **TYPICAL PERFORMANCE DATA**

| <u>Specification</u>       | <u>Minimum</u> | <u>Maximum</u> |
|----------------------------|----------------|----------------|
| Viscosity, seconds (T72)   | 0              | 100            |
| Sieve Test, % (T59)        | 0.00           | 0.10           |
| Residue by Distillation, % |                |                |
| (T59)                      | 50             | F 1            |
| Òil Distillate, % (T59)    | 0              | 3              |
| Penetration (T49)          | 0              | 40             |
| , ,                        | 19             |                |

#### **APPLICATION**

Depending on the surface being covered, MAX-A-TACK TTC® should be applied through a distributor at a rate of .05 to .10 gallons per square yard at a temperature of 130°F to 160°F.

Can be applied up to a maximum temperature of 160°F. Can be applied from pails without heating.

MAX-A-TACK TTC® has a minimum "break time" of 10 minutes.

### **PACKAGING**

5 gallon pails (18.9 L) 55 gallon drums (208.2 L) 275 gallon tote (1,041 L)

#### **SHELF LIFE / STORAGE**

Shelf life of MAX-A-TACK TTC® in the original, tightly closed container is six months from the date of manufacture. Optimal storage for MAX-A-TACK TTC® is in a heated tank equipped with an agitator at a temperature below 110°F.

## **LIMITATIONS / PRECAUTIONS**

- Do not allow material to freeze
- Avoid extreme overheating
- Keep out of the reach of children.
- Do not take internally.
- In case of ingestion, CALL A PHYSICIAN immediately. DO NOT induce vomiting.
- Can cause skin irritation upon contact, especially prolonged or repeated. If skin contact occurs, wash immediately with soap and water and seek medical help as needed.
- If eye contact occurs, flush immediately with clean water and seek medical help as needed.
- Refer to Safety Data Sheet for complete health and safety information prior to using product.

FOR WELL VENTILATED OR EXTERIOR USE ONLY!
